

Confined Space – A Focus on Rescue

A 90-minute webinar focused on the rescue segment of confined space standards.

You're Invited: Confined Space Rescue Webinar

Join us for an essential and informative webinar focused on the **rescue segment of confined space standards**, designed for safety professionals, supervisors, and team leaders across industries.

Webinar Highlights:

- **Understanding the Basics** of confined space rescue standards
- **Effective Communication** strategies for rescue scenarios
- **Key Differences** between confined space regulations in **Construction vs. General Industry**

Real-Life Incident Reviews:

We'll analyze **two actual confined space incidents** to identify what went wrong or right, examine the applicable standards, and discuss what **should have happened**.

Interactive Q&A Session:

Wrap up the session with **20–30 minutes of live Q&A**, where you can ask questions and get expert insights on confined space safety and rescue procedures.
